DID YOU KNOW?

Rooibos (red bush) is endemic to South Africa and is only found in the Western Cape mountains, near the Cedarberg. It's part of our natural heritage known as fynbos. Rooibos has a distinct flavour, is caffeine free and is widely believed to have medicinal properties.

It can be served black, with milk, as a red cappuccino or as iced tea.

On summer days it can be mixed with fresh fruit juice or found in cocktails.

*'The time has now come to slow down,
to sip rooibos tea with my beloved wife in the afternoons,
to watch cricket, to travel to visit my children and grandchildren,
rather than to conferences, and conventions and university campuses.'*

- Desmond Tutu -

Herbal & Loose Leaf Tea
